

THREE RIVERS BEHAVIORAL HEALTH

Three Rivers Behavioral Health is dedicated to being a trusted psychiatric facility which includes Older Adult inpatient, Adult Residential, and Adult Intensive Outpatient Program (IOP) services that provides short-term care and treatment to patients with psychiatric diagnoses. We aspire to be recognized as a leading psychiatric health company, differentiated by discovery, innovation, compassionate, patient and family-centered care.

Our Dedicated Team Is Here to Help

Our clinical team is available around the clock, 24 hours a day, 7 days a week, to help you with the admission process at your facility.

Once a referral phone call is made, our clinical team will provide:

- Immediate assessment
- Paperwork/documentation
- Copying or faxing
- Phone calls to family and/or power of attorney
- Transportation arrangements
- Post-discharge follow-up

The goal of each staff is to streamline the process from admission to discharge.

THREE RIVERS BEHAVIORAL HEALTH

THREE RIVERS BEHAVIORAL HEALTH

**WE ARE YOUR TRUSTED
ADULT BEHAVIORAL
HEALTH SERVICE**

Who We Are

Three Rivers Behavioral Health Inpatient Hospitalization is designed for adults ages 55 and up. The dedicated caring staff delivers patient and family-centered care.

Intensive Outpatient Program (IOP) is provided for adults, ages 18 and older. The goals of our IOPs are stabilization, supportive increased therapy, and the development of positive skills. The program can bridge the gap between acute care and individual therapy, can be an alternative for inpatient treatment or serve as a step-down from residential or acute mental health treatment.

Three Rivers Residential

Three Rivers Residential delivers services for patients ages 18 and older.

Specializing in Adult and Older Adult Inpatients, Residential unit services with primary psychiatric diagnoses. We provide comprehensive, individualized care to our patients based on their psychological and physical needs, contributing to the best patient outcome.

Understanding that environment plays a significant role in our patient's progress, our inpatient hospital is specifically designed to provide a safe, comfortable atmosphere for effective treatment of seniors. Each patient receives an individualized plan of care that's developed with the full participation of our multidisciplinary team.

FOCUSING ON THE MENTAL HEALTH NEEDS OF SENIORS

We offer specialized care for patients with conditions that include:

- Anxiety
- Psychosis
- Schizophrenia
- Behavior disturbances
- Depression
- Alzheimer's and other types of dementia
- Mental disorders related to brain injury, stroke or other neuropsychiatric disorders

EXPERT MULTIDISCIPLINARY TEAM

Our multidisciplinary treatment team works closely with patients and families to set individual goals addressing each patient's specific needs. The team consists of:

- Board-Certified Psychiatrists
- Psychologists
- Internal Medicine Physicians
- Nurse Practitioners
- Registered Nurses
- Social Workers
- Activity Therapists
- Registered Dietitians
- Physical Therapists
- Occupational Therapists
